In this uncharted territory, where ethical issues are rife, we can get blindsided by sinking too much of our faith into science, and losing our sense of humanity or belief in human rights. Even though different eye pathologies cause different visual limitations, we now know how low vision can affect both the physical and mental well-being of older adults and the ability to function in a variety of activities of daily living

ADLS and instrumental activities of daily living IADLS [ 5556 ].
